Classes III - IX

Dear Parents,

Together, we have always strived to encourage our children to develop sensitivity and compassion for the less privileged people in society. In keeping with this vision, we have joined hands with NDTV for their **Behtar India** campaign. The campaign aims at creating a nationwide movement to fight the scourge of mosquito borne diseases by creating awareness about the cause.

Please encourage your children to make people in their neighbourhood aware that they can help underprivileged children to get a Dengue Protection cover by paying merely Rs. 300 which would give dengue treatment cover worth Rs. 20,000, mosquito repellents to last the dengue season and a dengue prevention workshop to one needy child. You can sponsor as many children as you wish to.

You are requested to visit the NDTV BEHTAR INDIA homepage for further details of the campaign and for registering your child. Please refer to the attached pamphlet for directions to register and contribute in your child's name.

Please note:

1. Your child should select to register as **STUDENT**
2. Select the full school name in the drop down menu. It is given as:

G D Goenka Public School, Dwarka; Dwarka, Sector-10

3. Check the email id carefully before submitting as this is where you will receive the unique identification code for your child.

We look forward to working together to make our country '*behtar*'.

Regards,

Meenakshi M. Bhakuni
Principal
